SKILLS

Backend Java Developer

- Backend:** Java, Spring Boot, JPA/Hibernate, REST APIs, JSON, WebSockets
- Databases:** PostgreSQL, SQL Server
- Frontend:** Flutter, React, HTML, CSS, JavaScript
- DevOps & Tools:** Git, GitHub, Docker, IntelliJ, VS Code, PyCharm
- Virtualization and Networking:** GNS3, VMware
- Other:** Python, C, PHP, Arduino, OpenGL

LANGUAGES

Portuguese: First language

English: 
Proficient

João Rocha

SUMMARY

Backend Java Developer with a degree in Computer Engineering and experience in Java, Spring Boot, SQL databases, REST APIs and enterprise applications. Interested in backend development, distributed systems and scalable software solutions.

EDUCATION

Bachelor's: Computer Engineering, 09/2021 - 07/2025
Universidade Fernando Pessoa - Porto

EXPERIENCE

BACKEND JAVA DEVELOPER 11/2025 - Current
EGITRON - MOZELOS, PORTUGAL

- Develop and maintain backend features using Java, Spring Boot and SQL Server.
- Work with REST APIs, database queries and enterprise application logic.
- Debug, test and improve existing backend functionalities.
- Collaborate with the development team using Git and agile workflows.

CERTIFICATIONS

Cambridge English: C1 Advanced Certificate
University of Helsinki's: (MOOC) Java Programming I & II

HOBBIES

- Boxing & Gym:** Help me develop discipline, focus and resilience.
- Fishing & Reading:** Help me relax, stay patient and keep learning.

RELEVANT PROJECTS

- LurePilot AI:** Local-first AI fishing copilot built with Java 21, Spring Boot, PostgreSQL, React Native Web, Docker and LM Studio.
Integrates structured fishing context, Open-Meteo weather and Solunar data to generate validated A/B/C strategies and session adjustments.
Includes spots, fish and lure libraries, Lure Box, sessions, catch-photo gallery, recommendation history and analytics; the complete flow was validated locally with a real LLM.
- MalsTRUST:** Complaint management app for athletes and clubs (Flutter, Spring Boot, SQL Server).
- Clube Desportivo:** Full-stack website with online store, ticketing and admin panel (Laravel, MySQL).
- Data Analysis:** Integrated and analysed multiple datasets with Python, Pandas and visualisations.
- Distributed System:** File sharing and synchronisation system using Java RMI and RabbitMQ.
